

6.40.84E Study programme-specific admission regulations for the consecutive Master's programme Mining Engineering at the Clausthal University of Technology, Faculty of Energy and Economics dated 17 January 2017

According to § 9 General Admission Regulations for all consecutive and continuing education Master's Programmes at the Clausthal University of Technology (AZO-M) (Notifications TUC 2019, page 114)

1) Start of studies and application deadlines (§ 2 section 1 AZO-M)

To ensure that foreign students can obtain a visa in good time, we recommend that

- applications for the winter semester should be submitted by 15 April and
- applications for the summer semester by

15 November of the previous year.

It is highly recommended that students begin their studies in the winter semester so that they can attend consecutive courses in an appropriate order.

2) Admission requirements (§ 3, section 6)

For the above-mentioned English-language Master's programme, the language level

- IELTS with 6.5 points or
- TOEFL iBT with 79 points or
- TOEIC 4 skills with 1050 points

must be proven.

3) Determination of the minimum subject-related requirements (§ 3, section 2)

(1) Prerequisite for the previous course of study suitable for the subject is proof of the following achievements:

- a) At least 56 CP in basics of engineering, including

- aa) at least 38 CP in the fields of mathematics, physics, chemistry and electrical engineering
- ab) at least 18 CP in the fields of mechanics, machine theory and technical drawing;

b) at least 27 CP in the field of mining and geosciences, including

- ba) a minimum of 16 CP in the field of mining, mine ventilation engineering and materials handling technology and
- bb) a minimum of 11 CP in the field of geosciences

The determination of the previous course of study is suitable for the subject in question shall be made on basis of the documents to be submitted together with the application and, in this respect, on the basis of suitable criteria, in particular on basis of module descriptions explaining the teaching and examination contents and the literature used as well as the module requirements, the examination and study regulations and the study plans of the course of study in which the performance was achieved.

(2) In all other respects, admission shall continue to be possible if an applicant with a degree which, according to § 3, section 1, constitutes a non-subject-related degree proves to be suitable by virtue of other qualifications (e.g. several years of professional activity in the mining sector). Suitability is determined by the Admissions Committee on basis of personal interviews.

4) Determination of the procedure (§ 4)

For the above-mentioned Master's programme, an admissions procedure will be carried out in accordance with § 3 section 2 AZO-M.

5) Admission requirements (§ 5, section 1)

The technical requirements shall not exceed a maximum of 30 CP. Only examinations which are actually offered can be imposed as requirements. Courses without an independent examination possibility (offering only a module examination) are not permitted.

6) Entry into force

These study-specific admission regulations come into force on the day after their announcement in the official gazette of Clausthal University of Technology.
